EDUCATION

2022 - 2026
CEBU EASTERN COLLEGE

- Bachelor of Science in
Information of Technology

SOFT SKILLS

- Problem-solving
- Debugging
- Teamwork
- Time Management
- Communication
- Critical Thinking

TECHNICAL SKILLS

LANGUAGES

- PHP, JavaScript, HTML, CSS,
SQL, Java

FRAMEWORKS

- Laravel, Vue.js

TOOLS

- Git, Github, Postman, VS Code

CONCEPTS

- REST APIs, MVC, Authentication &
Security, Database & Data Handling,
Application Architecture

OBJECTIVE

To present my development projects and technical skills through the creation of functional and user-focused systems that address real-world organizational and management challenges, while continuously improving my knowledge in software development, system design, and database management.

PROJECTS

Point of Sale & Student Management System

Capstone Projects

- POS system for small businesses. Handles products, transactions, receipts, and sales history. Learned a lot about handling real business logic.
- Built for schools to manage student disciplinary records. Tracks offenses, sanctions, and case histories. Introduced me to role-based access and more structured data management.

POS URL: <https://systemposcec.unaux.com>

SMS URL: <https://studentoffensecec.unaux.com/>

Room & Inventory System

OJT Projects

- Built during my On-the-Job Training (OJT) at the University of the Philippines Cebu (UP Cebu) in just 3-4 months while actively learning Laravel. Designed for school classrooms and labs, it manages room details, tracks equipment assigned from the inventory, and monitors usage.
